

UNITED IMAGING

PASSION for CHANGE

Speaker: **Łukasz Mizerka**

General Manager for Europe

UNITED IMAGING

PASSION FOR *Change*

In March 2011, United Imaging Healthcare was established, led by a group of world-renowned scientists and professionals with rich R&D and management experience, to build a highland of talent and innovation in the field of high-end medical devices.

Vision
Leading Healthcare Innovation

Mission
Equal Healthcare for All

UNITED IMAGING

60+
Countries Where We Have Operations

24/7
Around-The-Clock Customer Support

7,400+
Employees Worldwide

39%
R&D-Focused

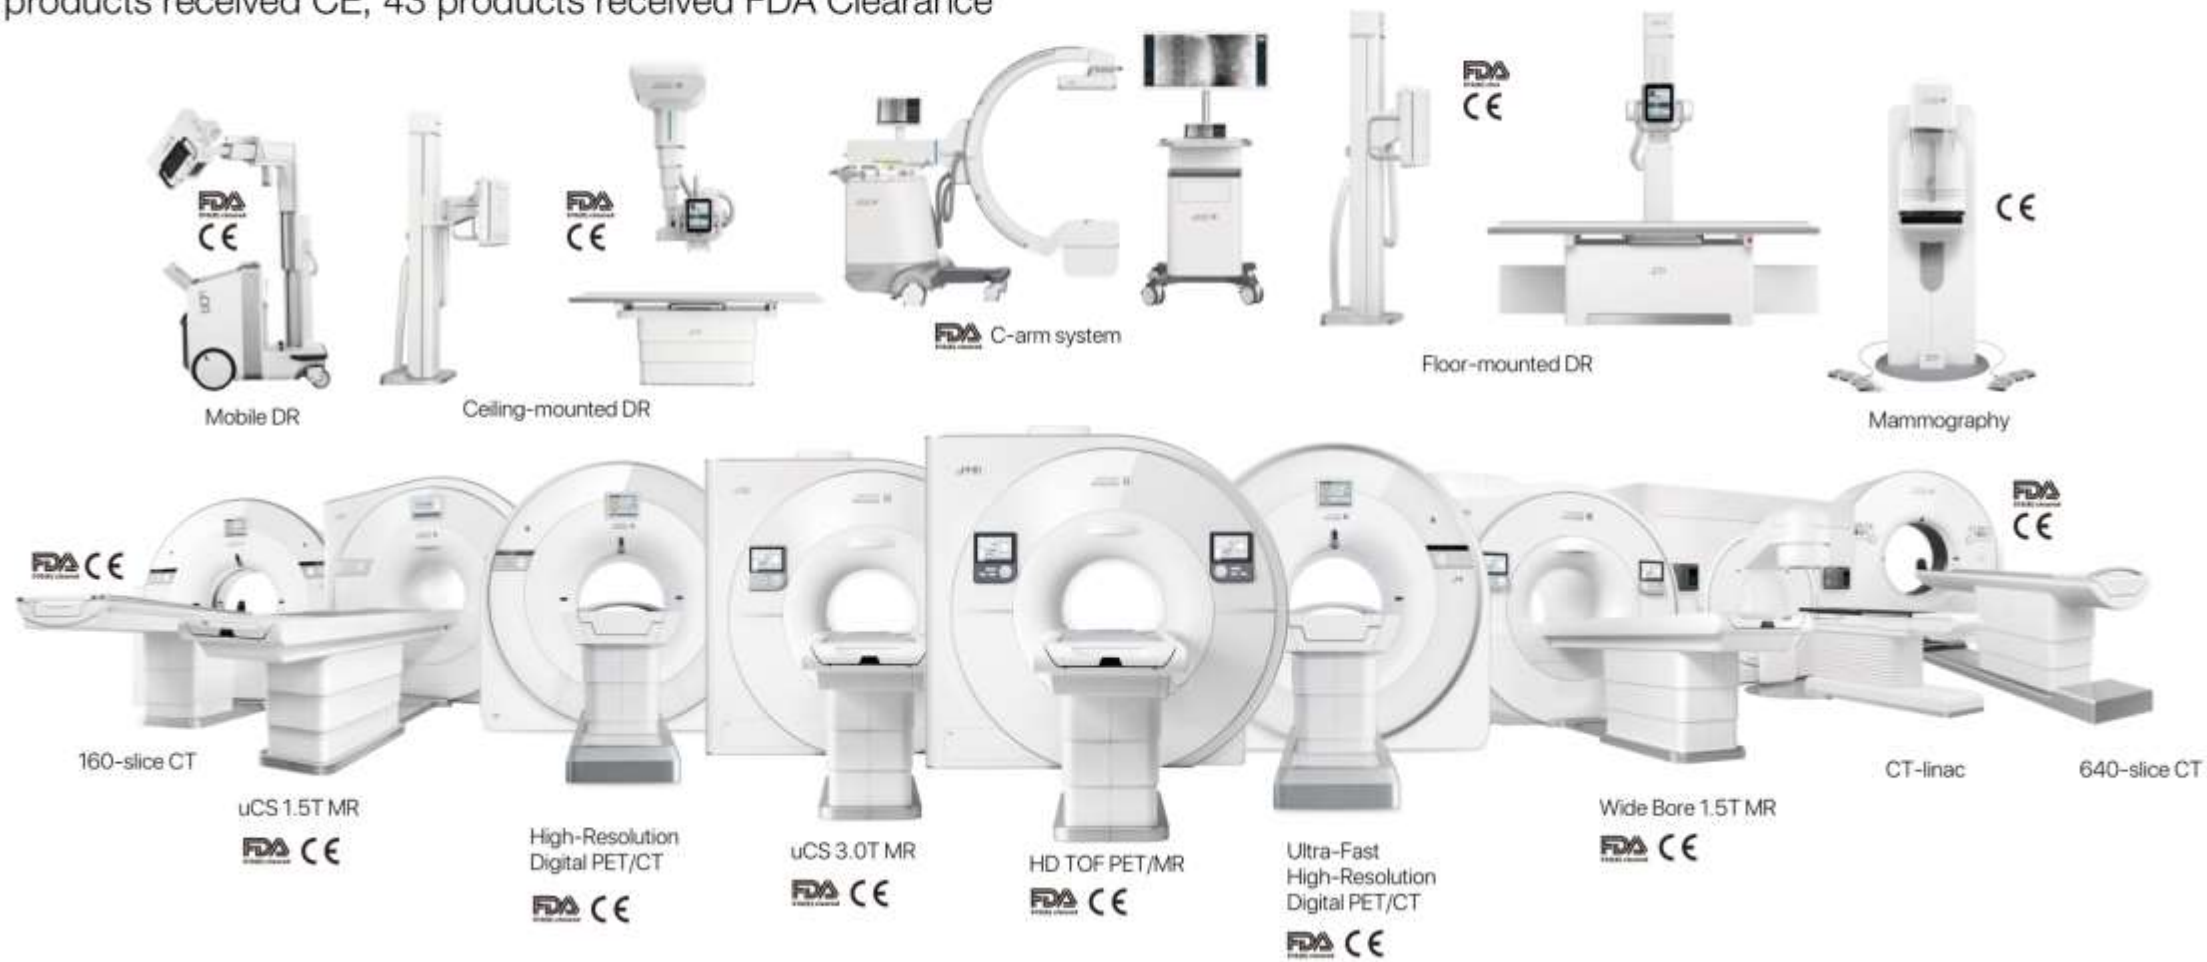

12,600+
Customers Worldwide

28,400+
Installed Units

UNITED IMAGING

100+ PRODUCTS HAVE BEEN INTRODUCED TO THE MARKET

43 products received CE, 43 products received FDA Clearance

Our ESG Commitment to Sustainable Innovation

We fully endorse the UN 2030 Agenda and have seamlessly integrated sustainability into our company's strategy and day-to-day operations. Our dedication is to drive business growth while simultaneously improving social well-being.

Transforming care

100+
ground-breaking products

$200+ million
2022, invested in R&D for products to advance patient care

Investing in our people

98%
2022, key personnel retention rate

30+
Global subsidiaries and offices

Going Green

93%+
renewable materials

1,330,462 kWh
annually saving electricity of green factory

Enhancing Healthcare Accessibility

12,000+
medical and research institutes

210+ million
patients served within structured medical systems

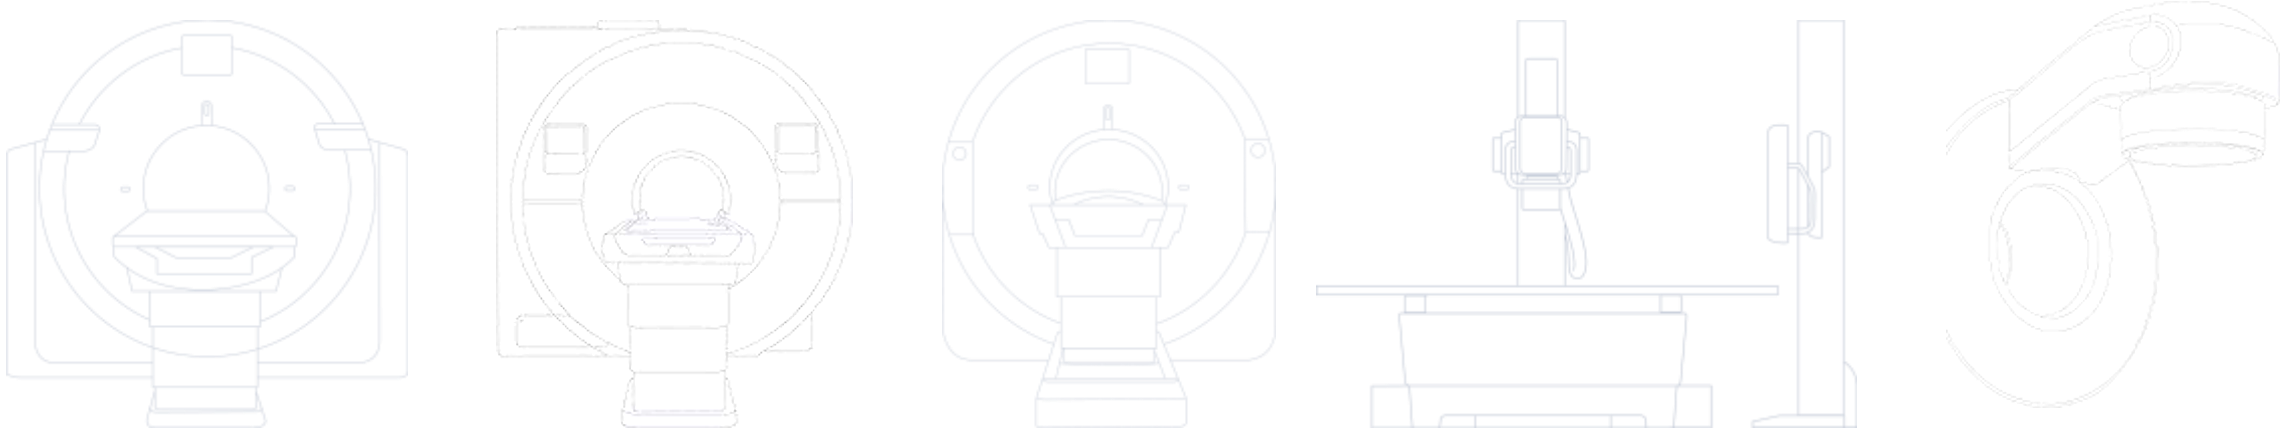

Reshaped China's Market Landscape

We have the largest market share in China’s major imaging markets, surpassing “GPS”.

NO.1

Italy is our key to Europe

FIRST mobile PET/CT in Europe
– the uMI 550 – in Italy

Azienda Ospedaliero-Universitaria di Bologna IRCCS Istituto di Ricerca e di Cura a Carattere Scientifico. Bologna wih the World's first total-body PET/CT uEXPLORER

Ospedale San Pietro Fatebenefratelli.
Rome with the World's first total-body PET/CT uEXPLORER

Bolonia, St. Orsola University Hospital
- Installation of uMI Vista

RCSS Sacro Cuore Don Calabria
- Installation of uMI 780

RCSS Sacro Cuore Don Calabria
- Installation of uMR Omega

We rely on Italian experts….

…because together we can deliver our Mission in EU,

Equal Healthcare for All!

UNITED IMAGING

Thank you

PASSION for CHANGE.

PERCEIVE MORE. **PROVIDE** MORE. **ACCESS** MORE.

GLOBAL R&D, PRODUCTION AND CUSTOMER SERVICE CENTERS

UNITED IMAGING

BORN WITH AI

Our products are designed with AI integration in mind, enhancing the capabilities of all full-modality medical imaging and treatment equipment for quicker, better, and safer diagnosis and treatment.

uAIFI Technology

AI for Imaging, leveraging a series of cutting edge technologies, it's set to revolutionize both hardware and software systems, enabling AI to enhance the entire scanning process. uAIFI will shape the future of intelligent healthcare with human-centered innovations, including Innovating End to End, Revolutionizing with Care,and Evolving with Intelligence.

uExcel Technology

Engineered to refresh the way you perceive and practice molecular imaging through adaptable designs and customizable applications, enabling you to excel in exploring clinical panoramas for the present and the future with ease and innovation.

uVera Technology

Empower system with intuitively bionic ability by intelligence driven robotics, perception and imaging. Making a system be able to understand by feeling rather than facts and provide proactive collaboration.

All-In-One Solution

Redefines radiotherapy workflow efficiency from CT simulation to treatment delivery. The entire process has been reduced from several weeks to dozens of minutes.

Cybersecurity Is One Of Our Most Important Customer Investments

We always abide by local policies and legislation.

Any data our scanners take in for servicing purposes is anonymized, and data is deleted once the customer archives it to PACS.

Remote service connections are optional and fully controlled by the customer; no ePHI data can be accessed or transmitted without the customer's express consent.

We adhere to U.S. data residency standards, keeping data securely within United States borders – including data for remote services.

We hold ourselves to the highest industry standards.

Clearwater Consultants, a respected independent third party, conducted a maturity assessment on United Imaging against the NIST Cybersecurity Standard (the same standard to which the U.S. Navy conforms).

We also maintain a company-wide cybersecurity management framework certified to ISO/IEC 27001: 2013 Information Security Management Systems.

Our assessment of its manufacturing operations determined that United Imaging has an extremely robust cybersecurity risk management program.
Dr. George Jackson

Clearwater Senior
Principal Consultant

ISO Certifications

DNV is the independent expert in risk management and assurance, operating in more than 100 countries.

United Imaging has successfully passed DNV's ISO system audit and holds the following certificates covering all departments and all products globally:
ISO 27001 (information security)
ISO 27701 (privacy protection)
ISO 27799 (medical information security)
ISO 27017 (cloud service security)
ISO 27018 (cloud service privacy protection)
ISO 20000 (IT services)

COMPANY MILESTONES

2011

United Imaging Healthcare Co., Ltd. (UIH) officially founded.

2013

North American R&D center founded in Houston, Texas.

2014

UIH Advanced Medical Equipment Industrial Park established with a total area of 120,000 square meters in Shanghai.

2016

UIH commissioned a second production facility with a total area of 2.5 million square feet.

2017

UIH raised 500 million USD in series A financing with post-money valuation of 5 billion USD.

2018

North American Headquarters, responsible for service, R&D, production, sales & marketing, established in Houston, Texas. Construction of a 100,000 square feet R&D, manufacturing, training, and customer service center commenced in Houston, Texas.

2019

European Headquarter, responsible for service, sales & marketing was established in Warsaw, Poland.

2020

In the fight against COVID-19, UIH provided thousands of intelligent CT scanners, DR systems, and mobile imaging centers to support global pandemic control.

2022

UIH's brand new Manufacturing and R&D base of operations officially kicked off.
On August 22, UIH launched an initial public offering (IPO) on the Science and Technology Innovation Board (STAR Market) of the Shanghai Stock Exchange, making UIH the largest IPO on the STAR MARKET this year.

2023

The first brand launch of UIH at European Congress of Radiology (ECR).

UIH achieved over 10 billion CNY in revenue, with over 100 products approved for listing globally.

Global subsidiaries and offices surpassed 30.

UNITED IMAGING

USER-FOCUSED INNOVATION

We draw valuable insight and inspiration for innovation from our close relationship with end users.

UIH × UC Davis

UIH partners with EXPLORER Consortium, a team of leading molecular imaging researchers and physicians, to build the world's first total-body PET/CT uEXPLORER.

UIH × Yale × UC Davis

UIH together with Yale University and UC Davis, undertakes the NIH Brain Initiative 2.0, to jointly develop NeuroEXPLORER, the next-generation human brain PET scanner.

UIH × Zhongshan Hospital

Explore entirely new research and clinical scenarios based on the world's first whole-body UHF MR uMR 5T.

PASSION for CHANGE

Today, United Imaging is recognized not merely as a newcomer but as a committed player with the confidence and capability to present international users with a new option.

Perceive More

For five years, we have been deeply rooted in the EU, consistently listening and agilely responding to customer needs.

Provide More

We have brought **a Full Portfolio of Game-Changing Products and Technologies that were born with AI：** 5T, uEXPLORER, Panorama and others.

In collaboration with our EU partners, we continue to drive changes

Access More

We deliver innovative products and technologies to various types of global customers, driving ”Equal Healthcare for All“

Global Presence: 12,600 customers and 28,400 installations

EU presence: more than 400 systems serving patients in 16 European countries

UIH visibility on key EU events - several examples
